

Li-Shi Luo

Li-Shi Luo obtained his BEng (Electrical Engineering) from Fuzhou University, China, in 1982, MSc in Physics, University of Western Ontario, Canada, 1986, and PhD in Physics, Georgia Institute of Technology, USA, 1993. Before joining the faculty in the Department of Math. & Stat. at Old Dominion University in 2004, he worked at Worcester Polytechnic Institute, Los Alamos National Laboratory, ICASE at NASA Langley Research Center, and National Institute of Aerospace. He is currently the Richard F. Barry Jr. Distinguished Endowed Professor in Mathematics and Eminent Scholar at Old Dominion University, and a Fellow of Division of Fluid Dynamics of American Physical Society. His research interests have been kinetic theory and non-equilibrium statistical mechanics, complex fluids, and kinetic methods for CFD.
