

Peter E Vincent

Peter Vincent is a Reader in the department of Aeronautics at Imperial College. He works at the interface between mathematics, computing, fluid dynamics, and aeronautical engineering. He holds an undergraduate degree from the department of Physics at Imperial College, a PhD from the department of Aeronautics at Imperial College in the field of Computational Fluid Dynamics, and previously served as a Postdoctoral Scholar in the department of Aeronautics and Astronautics at Stanford University. He is a 2016 Gordon Bell Prize finalist, a 2016 Philip Leverhulme Prize winner, and he holds an INCITE Award from the Department of Energy (DoE). He is also a member of the Association of Computing Machinery, and has recently been made a Fellow of the Royal Aeronautical Society.
